

RAEN

100 years in wine

The 2019 vintage celebrates the Mondavi family's 100th consecutive harvest in California. This journey began with Carlo & Dante's great-grandparents Cesare and Rosa Mondavi with the 1919 vintage, and continues today with RAEN.

These wines are adorned with the endangered Monarch Butterfly, which reminds us of our connection and responsibility to nature and the land, as well as our history and how we choose to define the next 100 years in wine.
