- pH: 3.4
- Free SO₂: <2 ppm
- Total SO₂: 4 ppm
- 210 cases produced

The 2019 Riesling was produced from the McGill Vineyard in the heart of the Rutherford AVA, situated behind Swanson Winery. The 4 acre vineyard is over 60 years old, is not irrigated, and is farmed in house by Jake, in a "beyond organic" style, without the use of any sprays or herbicides whatsoever. The grapes were hand harvested on September 26, 2019. The grapes went direct to press and then into a chilled stainless steel tank where they started and finished fermentation naturally. We racked the wine off of the lees prior to filling. Our Riesling finished dry, at 0.7 g/l residual sugar.

This is one of the few Riesling vineyards remaining in the Napa Valley. Aromas and flavors of ripe yellow apples, orange blossoms, pears and a hint of jasmine tea.

Sans Wine Co. is the first producer of premium canned wine in the Napa Valley, founded in 2015 by husband and wife team, Jake Stover and Gina Schober. All wines are produced by Sans Wine Co.
